Research Fields	Chemistry CHE Social and Human Sciences SOC Economic Sciences ECO Information Science and Engineering ENG Environment and Geosciences ENV Life Sciences LIF Mathematics MAT Physics PHY	<u>Sub-Fields / Keywords:</u> BIG DATA IOT DATAMINING ,	
Short Description of the Organization / Department	<p>Epidata is an American Multinational Software Architecture Oriented Company that provides high performance software development solutions in less time with lower risk than Organizations can accomplish on their own. It has a proven track record of successfully supporting Multi-National Corporations like Turner International, HSBC, Verizon and Walmart since 2003. It helps them update and maintain their core applications as well as migrate to new Technologies resulting in annual cost reductions of 20% while doubling Project Team productivity. Epidata is open source and agile by definition.</p> <p>Our Values are: Passion, Commitment, Team Spirit, Integrity, Flexibility</p> <p>The technology industry has a tendency to over-hype pretty much everything, from big data to the Internet of Things (IoT), and from DevOps to digital transformation, but many of these trends require new skills and new jobs. So if you're looking for a change of direction, a change of job title, or a glimpse into where the money could be in the future, look no further: EPIDATA has the answer.</p>		
Previous Related Projects / Research Experience	<p>Finished R&D projects:</p> <ul style="list-style-type: none"> • Fonsoft 2011 CI: Argentari Plataforma Bancaria (Banking Platform) • Fonsoft 2012 CII: Software Factory Control Board (Board for version control) • Fontar ANR 800 2012 CII: SOA Governance Scorecard (Monitoring ESB) 		

	<ul style="list-style-type: none"> Fonsoft 2013 CII :Walk Buy (Retail mobile) <p>In Progress projects:</p> <ul style="list-style-type: none"> Iberoeka: Gest City (About Smart Cities) Fonsoft I+D: ARCHFLOW(Reverse Engineering) Fontar 2015 C2:Governance SAAS (Modeling Software Architecture) Fonsoft 2016: Retail Fundación Sadosky: Trading Platform <p>Waiting for approval:</p> <p>Fonsoft 2016 C2:Conectores Mule (ESB Integration)</p>
Short Description of the Project idea (if foreseeable)	<p>We are formulating and implementing projects with varied scope and complexity; grantsmanship / proposal development that yields new partnerships and ideas, publishing evaluation research and development activities. Our focus is on projects related to IOT, Smart Cities and Big Data but we also are interested in software architecture, quality assurance and integration.</p> <p>We are looking for VR developer, IoT specialist and AI expert.</p>

VR developer, IoT specialist and AI expert

VR developer, IoT specialist and AI expert

So anyone with an growing interest in VR would do well to nurture their skills and get themselves out there. There is a lot of hype around DevOps, the integration of developers who build and test IT services, and the teams that are responsible for deploying and maintaining IT operations. I
